

Atlas 'L' Range

The **Atlas 'L' Range** is designed for reliable disinfection of drinking water and can treat flows from 11.4 l/min (0.7m³/hr) up to 79 l/min (4.8 m³/hr). These units benefit from axial flow polished stainless steel chambers coupled to a unique and innovative controller featuring a user friendly colour LCD display which gives meaningful user feedback messages.

Why choose Atlas UV?

- Intuitive colour user interface
- Simple plug and play installation
- Upgradeable platform (you can add a UV sensor or other options in the future if your needs change)
- QR codes allow a direct link for service support and spare parts
- Simple twist and turn lamp change
- Superb warranty
- Quality Canadian manufacture with full UK based sales support, spares and backup

Model	Maximum treatment capacity
L12	11.4 L/min (0.7m ³ /hr)
L22	22.7 L/min (1.4m ³ /hr)
L41	41 L/min (2.5 m ³ /hr)
L57	56.8 L/min (3.4 m ³ /hr)
L79	79 L/min (4.8 m ³ /hr)
